Product information

Product eligibility	• GSHP must be ENERGY STAR® certified. • Rebates are not available for new construction. • Confirm product eligibility by visiting the ENERGY STAR certified ground-source (geothermal) heat pump page at energystar.gov/productfinder/product/certified-geothermal-heat-pumps/results. • Eligible systems must be rated in the AHRI heat pumps database. AHRI certificates for eligible HVAC systems must include all components: indoor coils, outdoor coils, furnaces, etc. AHRI ratings for individual components of a system will not be considered valid. Your contractor should be able to help you obtain the AHRI certificate number to complete this form. • If the account is a business, you may be required to provide business type, tax status and W-9. • Heat pump must have a capacity ≤ 65 kBTU/hr. • Equipment already rebated via midstream or instant discount channel does not qualify for additional incentives.
